Please join us for an exclusive event that addresses security and business process improvement. Enjoy a complimentary lunch while learning about how our solutions can benefit your organization's workflow, security and document management needs. Presentations will give you unique insight on how a digital workflow solution can take any manual approval process and digitize it to improve efficiency, secure your organization's most critical documentation and increase productivity.

We will demonstrate:

- How your organization can benefit from electronic automation of key workflows and processes that impact your daily productivity
- How your company can take control of complicated business processes
- How sensitive information can be securely managed
- How to effectively manage version control of documents
- How to facilitate regulatory compliance
- Automation of Accounts Payable Processes
- Inventory Management
- Human Resource Process Management
- Reduction of paper and electronic storage costs

We welcome and encourage all guests to stay after to discuss your particular needs with our panel of experts on how Canon Solutions America can help your organization.
